Improving Your Storytelling Doug Lipman,1999 The first steps in storytelling are often easy, because we tell stories informally every day. Once you take storytelling into the more formal contexts of performance or occupational uses, however, you may be faced with challenges you hadn't anticipated. You need information that goes beyond the basics. And you need it in a form that does not just tell you what to do but helps you make your own informed decisions. This book is meant for the reader who has already begun to tell stories and is ready to learn more about the art. Instead of rules to follow, it gives you a series of frameworks that encourage you to think on your feet. Doug Lipman has written and taught extensively on the art of storytelling. With the same generosity and warmth that characterize his workshops, he considers the teller's relationship to the story, the teller's relationship to the audience, and the transfer of imagery in a medium that is simultaneously visual, auditory, and kinesthetic.

The Terrorist's Son Zak Ebrahim, 2014-09-09 An extraordinary story, never before told: The intimate, behind-the-scenes life of an American boy raised by his terrorist father—the man who planned the 1993 World Trade Center bombing. What is it like to grow up with a terrorist in your home? Zak Ebrahim was only seven years old when, on November 5th, 1990, his father El-Sayyid Nosair shot and killed the leader of the Jewish Defense League. While in prison, Nosair helped plan the bombing of the World Trade Center in 1993. In one of his infamous video messages, Osama bin Laden urged the world to “Remember El-Sayyid Nosair.” For Zak Ebrahim, a childhood amongst terrorism was all he knew. After his father's incarceration, his family moved often, and as the perpetual new kid in class, he faced constant teasing and exclusion. Yet, though his radicalized father and uncles modeled fanatical beliefs, to Ebrahim something never felt right. To the shy, awkward boy, something about the hateful feelings just felt unnatural. In this book, Ebrahim dispels the myth that terrorism is a foregone conclusion for people trained to hate. Based on his own remarkable journey, he shows that hate is always a choice—but so is tolerance. Though Ebrahim was subjected to a violent, intolerant ideology throughout his childhood, he did not become radicalized. Ebrahim argues that people conditioned to be terrorists are actually well positioned to combat terrorism, because of their ability to bring seemingly incompatible ideologies together in conversation and advocate in the fight for peace. Ebrahim argues that everyone, regardless of their upbringing or circumstances, can learn to tap into their

inherent empathy and embrace tolerance over hatred. His original, urgent message is fresh, groundbreaking, and essential to the current discussion about terrorism.

The Storyteller's Secret Carmine Gallo,2016-02-23 How did a Venice Beach T-shirt vendor become television's most successful producer? How did an entrepreneur who started in a garage create the most iconic product launches in business history? How did a timid pastor's son overcome a paralyzing fear of public speaking to captivate sold-out crowds at Yankee Stadium, twice? How did a human rights attorney earn TED's longest standing ovation, and how did a Facebook executive launch a movement to encourage millions of women to lean in? They told brilliant stories. In *The Storyteller's Secret: From TED Speakers to Business Legends, Why Some Ideas Catch on and Others Don't*, keynote speaker, bestselling author, and communication expert Carmine Gallo reveals the keys to telling powerful stories that inspire, motivate, educate, build brands, launch movements, and change lives. The *New York Times* has called a well-told story a strategic tool with irresistible power - the proof lies in the success stories of 50 icons, leaders, and legends featured in *The Storyteller's Secret*: entrepreneurs like Richard Branson, Sara Blakely, Elon Musk, Steve Jobs, and Sheryl Sandberg; spellbinding speakers like Dr. Martin Luther King, Jr., Bryan Stevenson, and Malala Yousafzai; and business leaders behind famous brands such as Starbucks, Southwest Airlines, Wynn Resorts, Whole Foods, and Pixar. Whether your goal is to educate, fundraise, inspire teams, build an award-winning culture, or to deliver memorable presentations, a story is your most valuable asset and your competitive advantage. In *The Storyteller's Secret*, Gallo explains why the brain is hardwired to love stories - especially rags-to-riches stories - and how the latest science can help you craft a persuasive narrative that wins hearts and minds. The art of

storytelling can be used to drive change, says billionaire entrepreneur Richard Branson. And since the next decade will see the most change our civilization has ever known, your story will radically transform your business, your life, and the lives of those you touch. Ideas that catch on are wrapped in story. Your story can change the world. Isn't it time you shared yours?

Storyworthy Matthew Dicks, 2018-05-15 A five-time Moth GrandSLAM winner and bestselling novelist shows how to tell a great story — and why doing so matters. Whether we realize it or not, we are always telling stories. On a first date or job interview, at a sales presentation or therapy appointment, with family or friends, we are constantly narrating events and interpreting emotions and actions. In this compelling book, storyteller extraordinaire Matthew Dicks presents wonderfully straightforward and engaging tips and techniques for constructing, telling, and polishing stories that will hold the attention of your audience (no matter how big or small). He shows that anyone can learn to be an appealing storyteller, that everyone has something “storyworthy” to express, and, perhaps most important, that the act of creating and telling a tale is a powerful way of understanding and enhancing your own life.

Humor, Seriously Jennifer Aaker, Naomi Bagdonas, 2021-02-02 WALL STREET JOURNAL, LOS ANGELES TIMES, AND USA TODAY BESTSELLER • Anyone—even you!—can learn how to harness the power of humor in business (and life), based on the popular class at Stanford’s Graduate School of Business. Don’t miss the authors’ TED Talk, “Why great leaders take humor seriously,” online now. “The ultimate guide to using the magical power of funny as a tool for leadership and a force for good.”—Daniel H. Pink, #1 New York Times bestselling author of *When and Drive* We are living through a period of unprecedented uncertainty and upheaval in both our personal and professional lives. So it should come as a surprise to exactly no one that trust, human connection, and mental well-being are all on the decline. This may seem like no laughing matter. Yet, the research shows that humor and laughter are among the most valuable tools we have at our disposal for strengthening bonds and relationships, diffusing stress and tension, boosting resilience, and performing when the stakes are high. That’s why Jennifer Aaker and Naomi Bagdonas teach the popular course *Humor: Serious Business* at the Stanford Graduate School of Business, where they help some of the world’s most hard-driving, blazer-wearing business minds infuse more humor and levity into their work and lives. In *Humor, Seriously*, they draw on findings by behavioral scientists, world-class comedians, and inspiring business leaders to reveal how humor works and—more important—how you can use more of it, better. Aaker and Bagdonas unpack the theory and application of humor: what makes something funny, how to mine your life for material, and simple ways to identify and leverage your unique humor style. They show how to use humor to rebuild vital connections; appear more confident, competent, and authentic at work; and foster cultures where levity and creativity can thrive. President Dwight David Eisenhower once said, “A sense of humor is part of the art of leadership, of getting along with people, of getting things done.” If Dwight David Eisenhower, the second least naturally funny president (after Franklin Pierce), thought humor was necessary to win wars, build highways, and warn against the military-industrial complex, then

you might consider learning it too.
